WSU at Milperra is a beautiful campus with lots of greenery and open space. Rather than being bulldozed to make way for roughly 400 drab looking houses on small blocks that do not fit in with the existing home styles, it would be the perfect location for a co-ed public school. The grounds are large enough for it to be K-12! It would certainly save lots of trees and wildlife not to mention save the local area from becoming overcrowded. There is already overcrowding in our schools. I cannot think of a better opportunity to capitalise on existing infrastructure for educational purposes.
