

INQUIRY INTO USE OF PRIMATES AND OTHER ANIMALS IN MEDICAL RESEARCH IN NEW SOUTH WALES

Organisation: Animal Aid, NAVS

Date Received: 2 February 2022

I am completing my submission to say that this extremely barbaric practice needs to end completely because it is unnecessary, unethical and unreliable, it is an absolute disgrace and massacre of innocent sentient beings that suffer and experience fear as well as pain just like us so why are we not using Paedophiles, rapists, child molesters etc instead of subjecting animals to such horrendous treatment, surely if they were part of your own family or a guide dog for one of your own relatives then you wouldn't want them being used in this way or subjected to such horror so how is this behaviour appropriate and okay when a blind eye is being turned to these Nazi type experiments being carried out on hundreds of animals each year. This is an uncivilised abomination and murder however you look at it or try to justify it.
