In 2019 i bought land in Melonba and built home and moved to Melonba. When I booked land in 2019 I was told by developer that public school from K-12 will be ready by 2022..In 2020 when I called department of education they told only high school will be coming..I am disappointed with that news..

Now my elder kid in year 7, because High school is not ready now he is going to private school which is closer to my home..I am paying \$6000 fees for Year..which is burden for me..

Community is growing super duper fast but and we are paying taxes and council rates..not sure why government is delaying in building new schools..

Request government to speed up process and build high school which is planned in Newpark estate on Elara Boulevard..

If government can start school for next year that will really helpful for most of people leaving in this community..

Thanks
