**INQUIRY INTO PLANNING AND DELIVERY OF SCHOOL
INFRASTRUCTURE IN NEW SOUTH WALES**

Name: Mrs J De Oliveira

Date Received: 8 February 2022

We have lived in the suburb of Jordan Springs for 8 years and are raising two young daughters. We have seen how this area has grown exponentially in recent years bringing many growing families of different cultures to the area.

The proposal for a High School will be a fantastic addition and huge benefit to all the children, including our girls. Opportunities to gain higher education close to home and learn in a newer, modern and larger capacity where they can stay focused and reach their full potential. This High School will also bring more employment for those looking to work in and around a school.

We are thrilled about this proposal and very hopeful to see a brand new high school located in Jordan Springs in the near future!
