Confidential

I would urge the NSW Government to reverse the decision of the sale of the Milperra University Campus.

This is a purpose built educational facility and it would be a huge mistake to bull-doze these buildings down in order to build houses.

Surely this campus should be used for the specifically designed educational facilities it was originally built for.

It is a beautiful space with numerous advanced trees and in this debate about climate change the destruction of relatively new buildings being bull-dozed down only to be replaced with more concrete, bricks and less trees.

I urge you to reconsider the decision to sell off this piece of infrastructure. Sometimes it's just plain wrong for the Government to make money this way. There are plenty of other spaces Mirvac can purchase to build their houses.

Furthermore, the traffic around Milperra and Henry Lawson Drive is horrendous and with extra cars coming out of the proposed site they will further clog this busy road.

Please think about this decision. Bring back the students to Milperra. I'm sure if you did a survey they would rather attend the Milperra Campus than the high-rise complex in Bankstown where there is no parking.

Thank you for your consideration.
