**INQUIRY INTO PLANNING AND DELIVERY OF SCHOOL  
INFRASTRUCTURE IN NEW SOUTH WALES**

**Name:** Mrs Charlotte Wright

**Date Received:** 9 February 2022

---

I would like to express my concerns for the Gillieston Heights public school. I am a mother of 3 young girls, my oldest is set to start kindergarten in 2023 and the state of the school does worry my husband and I. I don't understand why the school is lacking behind when Gillieston Heights has so many houses being built everywhere but the school is so small and overlocked. The fact that it doesn't even have the correct fencing that all other schools have is quite alarming. My husband and I went there to vote and we're concerned by the small amount of classrooms and just the general size of the school. Upon further investigation finding out that the toilets don't even have proper plumbing system is also concerning. We want our family to grow here and the suburb is so beautiful, it makes it hard to believe that the school is being forgotten about and the funding isn't being put into making it safe and secure for students. I'm truly hope the school gets the funding it deserves and that my daughters will be able to attend a school that is up to the standards of all those around it.
