**INQUIRY INTO PLANNING AND DELIVERY OF SCHOOL
INFRASTRUCTURE IN NEW SOUTH WALES**

Name: Mr Simon Rolfe
Date Received: 10 February 2022

Comment

Message Gillieston heights public school is in desperate need of upgrades due to the massive growth in population in the area, lack of school infrastructure and care factor of the government. The area is over run with new housing developments and the majority of kids in the area get sent to schools elsewhere due to the lack of facilities, security, playground area, the school is still on septic sewer event though there is housing development next door connected to town sewer...

Jenny Aitchisin MP has brought this and more to the table recently and I would love to see you inspect the school yourself and see the lacking infrastructure for yourself .

Giving the state government is spending millions and millions of dollars on stadiums in Sydney I really can't see why this school can't get fixed or even replaced all together as this is the children's education, the future of the country.

Can't wait to see you at the school.
