Partially  
Confidential

We desperately require a local Public High School for the Branxton area, my son's have to travel 25minutes on the over crowded School bus to get to their High School, that's almost 2hours travelling time every day, the High School is getting bigger each year, when we first started 1100 students now 1400, we need a High School built in Branxton to reduce the travelling time for our children, help reduce the numbers at Rutherford Technology High School, for the convenience of us parents, be much easier to drive 5minutes down the road to High School rather than 25minutes.

More and more housing developments are going ahead yet all children will be zoned to Rutherford High School, how much longer do we have to wait for a local High School, I've been hearing promises since my eldest was in Kindergarten, he's now in Year 11 and still no sign of this High School.
