Confidential

I purchased a home in Heddon Greta 16 years ago and in that time have seen it easily double in size and if you include the new neighbouring estate of Cliftleigh it has more than tripled. And what infrastructure have we seen with all this development, NONE!

My biggest concern is lack of primary schooling. For a suburb so big I don't understand how there is no plan for a public school to be built.

I had a child start kindergarten this year and our zoned option is Kurri, there were 87 kindergarten students!! That is a crazy high number and will only increase in future years. I know public schools that have less students in the entire school but it is acceptable for this many to be in one school year?! I know Kurri is a big school but it is soon going to outgrow the number of children in this area and another primary school is needed ASAP!
