**INQUIRY INTO PLANNING AND DELIVERY OF SCHOOL
INFRASTRUCTURE IN NEW SOUTH WALES**

Name: Mr Mark Pentecost

Date Received: 11 February 2022

Ropes Crossing Public School has approx 900 children in a school originally designed for just 400. There are now 2,500 homes in the suburb, and the school has only coped with the dramatic rise in numbers by installing several demountable buildings.

With the number of children attending unlikely to fall, it's time the government built some fit for purpose brick permanent buildings.
