What sort of country do we live in when it is permissible to use the reproductive organs of a female dog as a commodity, to churn out puppy after puppy after puppy to be taken from her and sold.

Forced breeding violates her body again and again in vile conditions. The reality is inhumane and it is not justifiable, not in this day and age.

We know better and we need to do better.

Show integrity and humanity and do the right thing.

For too long we have as a society, turned a blind eye to the abuse of our most loyal animals. We entrust them to protect our property and ourselves.

We love them in our homes as companions and family members.

We give them names, we take them to the vet spending vast amounts of money.

But we turn a blind eye to the suffering of their mother and choose to pamper our puppies, knowing their origin.

It is straight out of a horror movie, except it is a violent reality.

Factory farm breeders are 21st century animal slave traders.

It is not ok, it never was.

Do better Australia
