**INQUIRY INTO USE OF PRIMATES AND OTHER ANIMALS
IN MEDICAL RESEARCH IN NEW SOUTH WALES**

Name: Name suppressed

Date Received: 22 February 2022

Partially
Confidential

To Whom This May Concern,

Details of all animal experimentation, must be easy to access and publicly available with no exceptions.

These details include but are not limited to;

- exactly what procedures and on which and how many animals,
- what they are hoping to discover
- who any potential discoveries will help
- how long these experiments last
- how long each animal has to endure procedures and exactly what the procedures are
- what animal welfare representation/supervision the animals have
- what pain relief or sedation is administered
- what happens to the animals after testing is completed.
- who is conducting these experiments,
- where are they taking place
- who is paying for them

Anything involving non verbal sentient beings must be transparent and those in positions of authority must be closely supervised and scrutinised to ensure the innocent are protected.

To quote Mahatma Ghandi; 'The greatness of a nation and its moral progress can be judged by the way its animals are treated'.

The world is watching Australia, we live export our animals in extreme heat and terrible conditions to the most barbaric deaths, we shoot our kangaroos and legally bludgeon their tiny Joeys, we factory farm in the most inhumane conditions, we are one of the very few countries to still race Greyhounds even after several exposes revealing how cruel and corrupt that self-regulated industry is.

We allow developers to bulldoze Koala habitat, knowing they are now listed as 'Endangered'.

Australia has a reputation already for being so barbaric and merciless to her animals. Let's just get this animal experimentation out in the open and hopefully end the secret torture of more innocent, sentient animals.
