**INQUIRY INTO ANIMAL WELFARE POLICY IN NEW
SOUTH WALES**

Name: Ms Yvonne Wedgwood

Date Received: 25 February 2022

I would like the committee to consider the guidelines for making the treatment of animals safe from the current cruel laws. There is no reason why a country like Australia should allow treatment of their animals to be no better than that in 3rd world countries!! Please put an end to all cruelty to animals, whether domestic or otherwise, especially the transporting of Australian animals to other countries where after a long journey onboard a ship in terrible conditions, they are slaughtered in the most inhuman and horrendous manner.
