**INQUIRY INTO ANIMAL WELFARE POLICY IN NEW
SOUTH WALES**

Name: Name suppressed

Date Received: 25 February 2022

Partially
Confidential

The proposed Animal Welfare Bill 2022 does not address Animal Welfare...
Farming practices should be well documented & made freely available to the public through regular channels & not deeply covered in clandestine + labyrinth-esque document trails.

The media should also be freely able to report on findings reported & be permitted to freely observe day to day operations of commercial industries.

Well-funded independent 3rd party organisations or bodies should also freely audit the practices & has non censored publishing rights for their findings.

The welfare bill should also be extended to cover greater animal definition for well-known sentient animal classifications such as decapods & cephalopods (along with other closely related groups)

Be on the right side of change, by adopting these amendments to the Wellfare Bill.
