**INQUIRY INTO ANIMAL WELFARE POLICY IN NEW
SOUTH WALES**

Name: Mr Stephen Morris

Date Received: 25 February 2022

Dear Committee,

Protection of animals is now of paramount importance with Koalas now on the verge of extinction and people being allowed to do terrible things to domestic animals.

The RSPCA will only act when animals are not being fed but will not act for other areas of cruelty.

We had the experience of a neighbour who kept a dog locked up in his garage without ever letting it out.

We have live animal exports where cruelty is rampant.

We must protect animals from humans

Unlike humans they can't tell lies.

Regards,

Stephen Morris
