**INQUIRY INTO ANIMAL WELFARE POLICY IN NEW
SOUTH WALES**

Name: Miss Kerri Goman

Date Received: 25 February 2022

I have had furry fluffy and feathered friends my whole
Life.

For anyone to say they do not feel,

Think or have intelligence is not only ignorant but insulting.

I have witnessed grief at the loss of a family member both human and other. I have seen them
cry. I have watched on in awe as they try to work out how things work.

If animals are not sentient neither are humans. To be treated any other way is abhorrent and
unforgivable. When push come to shove humans are also animals.

Animals speak, learn create

And develop of the years like homo sapiens do.
