INQUIRY INTO PUPPY FARMING IN NEW SOUTH WALES

Name: Ms Evelyn Morgan

Date Received: 23 February 2022

I am writing in support of ending puppy farming in NSW.

The cruelty and lack of compassion and empathy for the suffering of the dogs being exploited to simply make money, is NOT acceptable.

Dogs have proven their worth to humans , providing companionship, guidance and security in all forms. These breeders have been shown to have no ethics with the sickening case of Strawberry the Boxer as an example.

Now that other states have stepped up and enacted laws to head in the right direction, it's time NSW did the same. Instead of lagging behind other states let's be leaders. PLEASE.

There is no place for this travesty in our modern society.

The outcome for the breeding dogs is horrific, but there is also the hidden outcome. There are so many unwanted dogs being euthanised and rescue groups working around the clock to raise funds to help rescue as many as they can.

Please listen to the people and end this disgusting industry.

I'm sure these people are not paying any tax on their evil earnings!
