**INQUIRY INTO PUPPY FARMING IN NEW SOUTH
WALES**

Name: Name suppressed

Date Received: 5 March 2022

Partially
Confidential

To whom it may concern.

Puppy farming (if you could call it that) should be banned due to the misery of not only female dogs but also the poor breeding in relation to health defects as the sold dog gets older, such as hip, knee, vital organs, neurological, skin conditions, the list goes on.

Artificial insemination, of female dogs to carry a larger litter than nature intended, which leads to c-section Dogs are man's best friend, why does any government allow these abuses to continue, let alone the Veternaring practices that support these abuses and gain financially from the suffering of these poor animals.

Clearly, the self-regulation of this industry does not work.

The number of dogs euthenased in NSW is evidence enough that breeding dogs is unwarranted.

Animals are not fashion accessories they feel pain and have emotions just like me and you.

Thank you.
