## **INQUIRY INTO PRIVATISATION OF BUS SERVICES**

**Name:** Mr Antoni Krasnodebski

**Date Received:** 31 March 2022

---

I am a pensioner and mostly rely on public transport for getting about. I think this government is short sighted in privatising any form of public transport. Enough damage is being done with the recent bus route changes - probably with the intention of forcing more passengers onto the misguided tram system, privatising the remaining buses will hopefully be the final nail in the current government's coffin. Hopefully a new incoming government will be able to resurrect a recognisable bus system.
