INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Lyndall Katz

Date Received: 31 March 2022

I live in Randwick. I am 66 years old. I care about the environment. I use buses as a main form of transport. Already our bus services have been degraded which has affected my life. Fewer buses to Bondi Junction and the city; unable to get to the airport easily (which will be an issue once we can travel easily again). And it pushes people back into cars. We need efficient cheap frequent buses in this state.
