INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Mrs Heidi Smith

Date Received: 31 March 2022

Privatisation is the scourge of the Public Service. We pay our taxes so that the government can provide services. This government has done nothing but reduce our services (not just public transport). They squander our money on ridiculous projects, destroying existing infrastructure, then sell off public assets cheaply to their "buddies" to make a quick buck. Let this not happen to the buses of the Eastern Suburbs - the Light Rail is no replacement and is a stunning example of this government's cavalier attitude.
