INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Mr Mark England

Date Received: 31 March 2022

The public bus services to and from Coogee have been severely curtailed. As a result what was once a public asset we could all be proud of has been severely diminished.

Our bus system curtailment was preceded by the implementation of a tram system which is proving more of an impediment to effective transportation than a boon. If a tram is halted then the whole system is severely effected, but not so for the buses.
