## **INQUIRY INTO PRIVATISATION OF BUS SERVICES**

**Name:** Miss Natasha Pavlovic

**Date Received:** 30 March 2022

---

I do not want to see the public transport-bus, trains or ferries become privatised. Nothing good will come of this. We are not America, Australian government has the capability to efficiently run these services for the public. Stop being lazy, stop selling off our necessities and start looking at maintaining what we have built as a fully functioning society. We DO NOT NEED ANYTHING ELSE SOLD OFF! This action if enacted would be an outrage to myself and insult to my community.

I am a frequent user of public transport and would not like to see this network go into the hands of some big corporation. I employee you this must not happen.
