INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Ms Fiona Andry

Date Received: 29 March 2022

Impossible to get to the city from Malabar in a timely manner since the bus cuts. My son has since moved out of home as he can't get to Uni in under 90 minutes from Malabar. We are now forced onto a meandering Light Rail that was clearly built to please property developers and private bus providers and not the general public. Shame on the State Government. Can't help but believe that corruption is at the heart of this and that everything is for sale. This is not good governance. The public bus services need to be restored in District 9 and throughout the Eastern suburbs. The elderly and those with additional needs are especially effected. My heart goes out to all of them.
