## **INQUIRY INTO PRIVATISATION OF BUS SERVICES**

**Name:** Dr Dorothea Sophia

**Date Received:** 29 March 2022

---

I'm fed up because:

I can no longer do my weekly trip from Coogee to Annandale and back to Coogee on the 370;..

I can no longer get to Railway Square to make connections with busses to other parts of Sydney now the 372 has been axed;

I can no longer get into the city on the 373 to go to State Library, the Art Gallery, DJs, the Botanic Gardens without walking more than my legs can often manage.

Your role in government is to provide service to the public where such services cannot be met by the individual. You are not appointed to privatize these services for the few to profit at the expense of the many. Your economic and social responsibilities, in this instance and in many others, as elected members by and of society is deplorable.

Buck up and bring back our busses.

Sincerely,

Dorothea Sophia .
