INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Jerry Frenkel

Date Received: 27 March 2022

As a working mother of two, my daily commute had doubled because of cancellation of the 393 and x93 bus services from Maroubra to Railway Square. What used to be a trip of 35 min door to door cannot be complete in under an hour now.

NSW government's rhetoric about helping working families is just that - a rhetoric. I feel like the time my kids could be spending with their mother had been stolen from us. The Government didn't listen to the people, ignored the concerns of thousands, and persevered with decisions that made no sense, brought no benefit to the general consumer and were purely financially motivated with no regard for social impact.

It is imperative that the bus services in the South East are reviewed and reinstated.
