INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Mr Robert Worthington

Date Received: 26 March 2022

The private bus company will not have the service range or frequency as publicly operated buses.

It's quite simple they want to make a reasonable profit from the community that expects a reasonable service, an oxy moron.

My wife doesn't drive, please keep the service's reliable at a reasonable price.

Most people now have to change with the new introduction of the new timetable where over 20 routes are slashed.

I wish the people making theses decisions had to catch these buses and walk further and take longer, they probably drive to work

The bus stop across the road where I live at Albion St in Randwick used to have 5 different routes stop at it. Now the stop has been removed and I have to walk 400m up the road where only 1 bus stops.
