INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Miss Gabrielle Mills

Date Received: 24 March 2022

The public transport in the eastern suburbs bronte, clovelly and randwick is absolutely dismal as someone who works in the city getting to and from is an hour journey no connections and extreme wait times the light rail is not a suitable form of transport into the eastern suburbs more buses and connections are needed urgently. I will be moving to northern beaches from the lack of transport available. Eastern suburb public transport would have to be the worst in any city I have ever been too.
