INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Mrs Nga Nguyen

Date Received: 23 March 2022

Eastern suburbs in Sydney has never been good with public transportation as we never had trains. The recent cut or modified of bus routes only made it from bad to worse. We had to walk further to catch buses and endure longer rides, change buses to get from A to B. These change also make trips are more expensive than it use to be.

Please bring back the old routes. This change does not benefit the broad public at all, only bring pain and inconvenience
