## **INQUIRY INTO PRIVATISATION OF BUS SERVICES**

**Name:** Ms Joanne McNamara

**Date Received:** 23 March 2022

---

I have lived in Randwick council all my life . And while our bus system into the city was poor before the light rail it is now a total disgrace . Not only is there no bus stop at the light rail in Randwick , by the time you walk to the light rail from the bus you can watch it pull away unbelievably frustrating . And while the frequency of buses to Eastgardens and the Domestic Terminal has improved , if you need to go into the city on a weekend or after peak you really have your work cut out for you , how elderly ( I'm 60 ) or disabled people are coping with this I can only imagine . I was able to get on a bus 377 and go straight into the city , now I can go to Bondi , walk and get a train or go to Randwick and get the light rail - both a lot more work for me . Disgraceful that this has been allowed to happen .
