## **INQUIRY INTO PRIVATISATION OF BUS SERVICES**

**Name:** Mrs Rhonda Salter

**Date Received:** 4 March 2022

---

My concern is the 339 bus route

It serviced our community from Clovelly to the city for many years and now terminates at Central Railway.

This makes the journey to the City and Circular Quay take quite a bit longer plus we have the inconvenience of changing modes of transport.

This can be challenging and difficult to manage for the elderly, the disabled and people with young children, not to mention the general public especially in bad weather.

Only a few months ago, a day out to Manly involved a quick bus ride to the city and then a ferry. Now it is a complicated affair of changing transport modes. So when invited to Manly it was easier to drive. Hello, what a shame. A step backwards for sure for the planet.

Please return the 339 service to it's logical destination of Circular Quay area to make it easier for all of us.
