INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Ms Jane Burns

Date Received: 1 March 2022

The changes to buses in the Clovelly /Frenchmans Road part of Randwick have left passengers with far fewer choices. Many of the remaining buses to the city terminate at Central, go to the George Street end of the city leaving Elizabeth Street end requiring bus change , place stops at unusual and lengthy intervals and in general make for complications for every journey. This discourages use.

What research has been done to find results of proposed changes? What consultation has been held with travelling public? What has been the background reason to impose these unwelcome changes?

Passengers wanting to go to The Ritz Cinema (which formerly was served by 314/-7 buses) have long walk. Normal journey to Belmore Rd Supermarket area require a long walk because the remaining bus (390x) does not stop there. Totally out of touch planning.which should embarrass someone hugely..
