INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Miss Joy Singh
Date Received: 8 February 2022

This bus route cuts has affected my entertainment in the city, going to work takes much longer. It doesn't leave me much time for recreational activities! Where as before I could get home in 30mind and go for exercise and catch up on entertainment in the city or friends. It's affection my mental health and keeping me isolated.

It has caused further undue stress. No one wants to walk up to Randwick to catch the trams as it takes an hr to get to city!!! Get rid of trams.

Privatising the buses will add to extra cost and more route cuts!! You are ruining the health and well-being of people who want to life here and killing our rental market!!
