Three of the four buses near where I live have gone. The other has had a number change. There are no additional bus services near where I live.

The NSW State Government has made a right mess of public transport in the Eastern Suburbs. We want buses, not that ridiculously slow light rail system. Most people don't want to go on the light rail routes because the trains don't go on the bus routes or to the destinations that they want to get to.

The light rail into the Eastern Suburbs is a waste of billions of dollars of tax payers money. It's a white elephant like the Sydney Monorail. Should have stuck with buses and used the money available to maintain and improve existing services.

I won't be voting for the Liberals again. They have pissed our money up the wall. ALP couldn't have done a worse job of it.
