Since the bus routes were cut and modified last year, I have stopped using public transport for my commute from Maroubra to Westmead Health Precinct. I used to commute to work via bus then train from central. However as there are no longer buses from Maroubra to Central, my only public transport option is an extra link from bus to light rail. This requires additional time to change transport modes and is more vulnerable to break downs. I have tried, but found it lengthened my commute beyond what I can fit into my day, juggling work and parenting responsibilities. Regretably, I am now back in my car, paying extra for tolls and petrol just to ensure I can get to work and home in a reasonable time frame. Please give us our buses back!
