INQUIRY INTO PRIVATISATION OF BUS SERVICES

Name: Name suppressed

Date Received: 17 March 2022

Partially
Confidential

As a user of the bus services between Clovelly & the city, I find the current service minimal & would not wish it to degrade further. I am a casual worker, often having to work Saturday & Sunday. The bus serve is irregular particularly on those days. We in the eastern suburbs have no other option to get to work, if we work in the city. I would wish the government to consider this when making their decisions. The bus service should be firstly based on public service & secondly on money. It is also more environmentally friendly to run 1 bus than 30 cars, particularly if we change these vehicles to electricity over time. The service is not cheap compared to other places in the world. I do hope the the voices of residents of the east will be heard.
