

**INQUIRY INTO ROAD TRANSPORT AMENDMENT
(MEDICINAL CANNABIS-EXEMPTIONS FROM
OFFENCES) BILL 2021**

Name: Mr Murray Harris

Date Received: 15 April 2022

I want to know why the current THC driving impairment rule is based on a political stance with no scientific basis to back it up regarding residual trace amounts impairing the ability to operate a vehicle.

There needs to be a medically recognised ratio of the drug/blood that obviously errs on the side of caution yet shows common sense being applied backed up by proven data already available.

To take a legal medication responsibly and still be found at fault by a law that has no science to back it up is unjust to say the least.

Time for the Adults in charge to leave their biases at the door and fix this unjust, incorrect rule of law.
