I work for State Government organisation's which are now all based in Parramatta. The previous regularity of buses made it achievable to work in Parramatta. The infrequency of buses now means journey times to and from work have blown out. I need to change forms of transport three times. It is not achievable to expect employees to return to work with unreliable public transport. The long hours of commuting are exhausting. It also takes a long time and changes to get to places like circular Quay. This is not accessible for elderly or disabled. I want to continue to work but I would also like a commute of 30 minutes, even 1 hour not 1.5 hours each way and times blow out even more when it's raining. A world class city need world class public transport. Reinstate our buses.
