Dear Minister,

Thank you for your time to read my concerns as an Australian resident. Since most of the buses passing Anzac Parade were cancelled and only one bus 396 left to the city, the bus has been crowded even off peak time during lockdown. It's more crowded now after the government asked people to return to work. This situation cause not only possible outbreak of infectious disease ( as we know, COVID is still around us), but also the possible injuries or damages to normal people when they have to stand up and keep themselves standing stable on a fast-running bus, not to say those vulnerable group like aged people and people with disabilities whom I have seen most on that bus.

Therefore, please be more humanized to do something real to solve resident's problems in their everyday life. That's horrible experience each time when I had to take this bus but unfortunately I have to take it now to go to office.

Eager to appeal to your concern on this escalating problem.

Regards,
