Easter holiday period 2021 I was targeted by police followed from my private residence for a distance of 1700m pulled over immediately breathalyser test and drug test was conduct then I was asked for my name while the test for drug was being analysed the senior officer finally returned to ask for my driver license moment later I was asked to accompany the officers to their vehicle for further testing the second test was defective and fell into two piece in my mouth which I had to physically remove from my mouth with contaminated hands when that test was used to take my license I was allowed to smoke a cigarette before the test which may or may not have had residual cannabis in it who's to know but the officer had a photo of my vehicle park in my driveway taken days before local officers now I'm being extorted but vicroads the service providers and the third party booking and payment racket the governments got going on although I'm still laughing because you idiots don't recognise or care to listen to people like me keep up your worthless persecution your courts are a joke your police are weak nothing you do or say will stop people from sourcing there medication and if you knew how a calculator worked imagine 2 million people paying \$750 a year to have a permit to grow 12 plants for personal use that's 1.5billion maybe more I don't know to use on hospitals child care and housing think of the people not yourselves
