INQUIRY INTO 2022 REVIEW OF THE WORKERS COMPENSATION SCHEME

Name: Allan Cassar

Date Received: 19 July 2022

Review Workers Compensation 2022 Standing Committee on Law and Justice,

Members of the Standing Committee,

I have been subjected to discrimination, and abuse from my employer who is actually self insured. From day one they have denied me my rights and treated me in a way that if I was an animal they would be facing court. Something needs to be done about the so-called independent medical assessors who are paid by the insurance company. Time and time again it is proven that a lot of their assessments have been proven to be totally wrong but with no action taken as this says either they are incompetent or plainly doing a cash for comment style of report. This is just one of a myriad of problems. I haven't dealt with icare but admissions that have come out from them of late shows the abuse is systemic . My former employer has tried to physically, mentally and financially destroy me and it needs to end.

Kind regards, Allan Cassar NSW JP
