Partially  
Confidential

It has been brought to my attention that my grandchild's school, Castle Hill High School has an unresolved issue re asbestos. It is really important that the school community - teachers and children are not put at risk from this unnecessary problem. It is the responsibility of the government and school to provide a safe environment for the school community and one that does not put their future at risk. Parents send their children to school for them to be part of a safe, educational environment. We as tax payers require action to be taken to ensure this is a safe asbestos free environment.
