Re: Inquiry into Barangaroo sight lines

Please check my personal details confidential.

Personally, I am not sure what the truth is in relation to the calling of an inquiry into and reporting on Barangaroo sight lines.

Should there be a finding of any illegal dealings on the part of the developers/owners, I believe there can just be just one decision possible – that Barangaroo sight lines be restored to what they were before development commenced. Should that necessitate the demolition of the current structure, then let that send a clear message to all.

Please check my personal details confidential.

Yours faithfully,
