**INQUIRY INTO FEASIBILITY OF UNDERGROUNDING
THE TRANSMISSION INFRASTRUCTURE FOR
RENEWABLE ENERGY PROJECTS**

Name: Name suppressed

Date Received: 5 July 2023

Partially
Confidential

As landholders who have strived and sweated to own and maintain our own property, it defies understanding that anyone thinks it's ok to appropriate that land to make way for towers and powerlines to supply power to people hundreds of km away.

This community's natural beauty, the livelihood and longevity of ownership of farmlands, some which have been in a family for generations, the Tourism industry and the associated economic benefits and the health and safety concerns at stake with these monstrous towers and power lines, is more important than turning the lights on in Melbourne or Sydney OR PROVIDING DIVIDENDS FOR CANADIAN AND CHINESE SHAREHOLDERS.

SHAME ON ANYONE WHO THINKS THIS IS OK!! GO UNDERGROUND OR GO AWAY!!
