**INQUIRY INTO FEASIBILITY OF UNDERGROUNDING
THE TRANSMISSION INFRASTRUCTURE FOR
RENEWABLE ENERGY PROJECTS**

Name: Name suppressed
Date Received: 11 July 2023

Partially
Confidential

Please reconsider and spend the money now to put these powerlines underground. Don't make the same mistake as the Liberal Party did with Broadband which has cost billions to fix.

Consider the environmental impacts and high maintenance costs of overhead powerlines and the impact on the families living in the region. Turning our beautiful landscape into a mess of powerlines will not only pose health risks to those living close to them it will be a constant risk to mental health and happiness, some of the very reasons why we choose to live in a peaceful rural environment.

Whilst we can send money overseas to Ukraine to fund a war that nobody wants, instead of promoting peace in the region, whilst pouring billions upon billions into ill thought through submarines, and yet the government chooses to neglect your own citizens, the very people who voted for you, and whom you should represent, you choose to ignore.

Please listen to us. The rural citizens of this beautiful country, the envy of the world. Don't destroy our landscape. Protect and respect our environment. Protect and respect your constituents. Thank you for your time.
