Confidential

After experiencing a massive loss in the 19/20 black summer bushfires, the new proposed lines need to be underground, to protect our fire fighters and land holders. With the new proposed lines this will divide our valley even more and restrict our emergency services. We need to do everything possible to protect what our previous generations have worked so hard for. For most of us, our lives have been changed forever and are still repairing the damage from 19/20
