The Hon Emily Suvaal, Committee Chair,

Inquiry - Feasibility of undergrounding the transmission infrastructure for renewable energy projects

Standing committee on State Development

Parliament House

6 Macquarie Street

SYDNEY NSW 2000

Dear The Hon Emily Suvaal MLC,

Re: Feasibility of undergrounding the transmission infrastructure for renewable energy projects

I feel this is very important for many reasons to under ground these power lines.

1. Powerlines with fires, arial booming spraying,
 2. Spraying cropping area.
 3. Transgrid workers leaving gates open and not doing what we ask.
 4. Cost to land owner with cropping ,stock interference.
 5. Health impact, i personally have lost three family members from cancer who lived with existing lines.
 6. Visibility of rural land.
 7. Health impact on stock for human consumption.
 8. Land owners won't need as much compensation if it goes under ground.
- Etc etc etc etc.
