Subject: OBJECTION TO TRANSGRID TRANSMISSION LINES

Dear Helen,

Myself like many others, have been absolutely shocked at the way Transgrid have conducted this whole procedure.

We received notification of this with 12 days to reply to something that will transform our lives dramatically. We have had several meetings with very large attendances, all adamantly against this. The most disappointing meeting was with Transgrid at Moulamein where we discovered this whole procedure has not been researched properly, based on untruths, misinformation etc.

As an elderly member of the community I watched my sons, and other members of the community become physically, financially and MENTALLY destroyed by last years horrific flood. I am deeply concerned for the welfare of Mellool residents. The threat of overhead power lines is possibly enough to push them over the edge.

Thank you Helen for trying to help us overcome this problem.

Helen Monk
