Subject: transgrid project

I'm hoping that you are aware of the new transgrid project to run through your electorate and the current discord with the way transgrid has handled the community consultation and the strong opposition to this project. Transgrid employees are insinuating that this project is already a done deal and locals' opposition to this is fruitless. Even telling farmers if they don't agree they'll compulsorily acquire their land. The Murray River Council has also been complicit in its duty to the people it represents. The local farmers and local community who oppose this project would love for your involvement to look at the finer details of the project and what if any benefit it will have to our community because all we can see is the loss of valuable farmland and the devastation it will have on our community
