Not enough is being done to support our pounds and to help them look after our animals with care and dignity. Too many animals are being put to sleep because the government doesn't care enough to do the right thing and pledge to make things better for the animals. Australia is a first world country that treats its animals very poorly, we need to upgrade our pounds, hire more trained staff to look after the animals and open more pounds to help with all of the abandoned animals. Also supporting rural pounds is a must!!
